

MPAX

In vision the Future

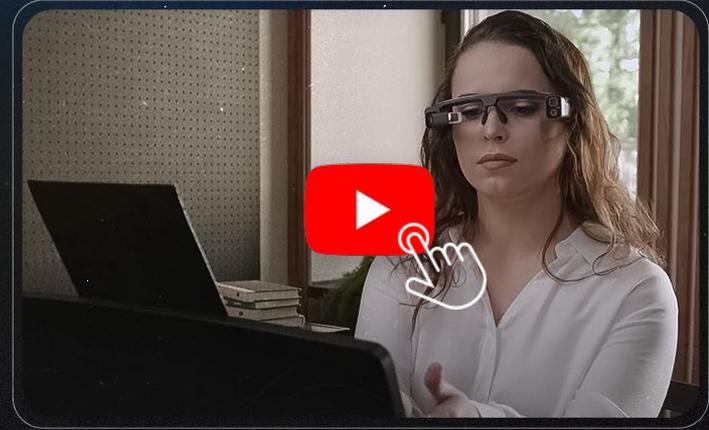

Pitch Deck April 2024

Revolutionizing monetization for content creators

MPAX is the platform enabling anyone to monetize their time through live streaming with wearable devices.

Creators can now directly monetize their content, earning up to 80% profit and becoming the primary beneficiaries.

Imagine guiding someone on another continent, experiencing everything they see and hear in real-time.

How it works

Business partnership

MPAX will **unlock new revenue** streams for teams by monetizing before and after the game content, **something that hasn't been monetized before.**

This innovation comes without the need for additional investments or large production budgets, offering live, first-person perspectives that fans are bound to fall in love with and keep coming back for more.

Plus, fans have the convenience of making purchases directly during live streams, right when impulse buying is most likely to occur.

Celebrities @MPAX

MPAX offers influencers a platform to safely and immersively sell access to their lives, fostering closer relationships with their audience and providing a more personal level of interaction.

There are 4 ways of monetization for Content Creators

01 donations

A free stream that generates revenue from ads and donations, featuring trivia, merchandise sales, and live chat.

02 pay-per-stream

Pay-per-stream model unlocks special content, offering creators premium earnings from high-profile streams.

03 subscription

Monthly and yearly subscriptions, packed with exciting bonuses like tickets and exclusive merchandise, increasing creator revenue through added value.

04 live-shopping

Each stream allows purchasing unique items live like signed jerseys and limited editions, increasing revenue with exclusive merchandise.

Skyrocket your sales conversions with MPAX live-shopping

Sports: a prime use case

Consider this: a use case we're developing an MVP for.

Sport club @MPAX

We're set to revolutionize the pre-game routine by offering fans a unique live experience: a behind-the-scenes glimpse through the eyes of their favorite players, coaches, or club legends.

This immersive approach will forever change how fans connect with the game, keeping them closer to their club at all times.

With a total addressable market (TAM) for sports around the world at \$3 trillion per year, the potential is huge.

There are billions of sport's fans around the world

Rank	Sport	Estimated Fans	Estimated Fans
01.	Soccer / Association Football	3.5 Billion	Europe, Africa, Asia, America.
02.	Cricket	2.5 Billion	Asia, Australia, UK.
03.	Field Hockey	2 Billion	Europe, Africa, Asia, Australia.
04.	Tennis	1 Billion	Europe, Asia, America.
05.	Volleyball	900 Million	Europe, Australia, Asia, America.
06.	Table Tennis	850 Million	Europe, Africa, Asia, America.
07.	Baseball	500 Million	America, Japan.
08.	Golf	450 Million	Europe, Asia, America, Canada.
09.	Basketball	400 Million	America.
10.	American Football	400 Million	Europe, Africa, Asia, America, Australia.

Note: this list is found in various forms online, though the original source of the fan numbers is unknown.

What kind of FPV content could you monetize with MPAX?

Imagine following the legends as they drive into the stadium, gaining access to backstage scenes, and chatting with other celebrities — all from their point of view.

This initiative will be a collaboration harnessing the full power of our Partner's marketing team. After all, the better the content we craft, the more revenue it will generate for the team.

Go to market strategy

MPAX is a bridge between WEB 2.0 to WEB 3.0

Step 1

Web 2.0. Signed an exclusive streaming contract with one of UEFA's top 10 clubs, MVP launch. There are already more agreements with several other clubs from the premier league and NHL.

Users are able to access simple fiat integrations using MPAX@Sport's Club module on sports team site in WEB 2.0, which does not involve blockchain technology.

Step 2

Celebrities or leading content creators as already signed ambassadors will create their own accounts on MPAX.io main platform with interaction in WEB3 only.

This process involves the use of the blockchain, which people must purchase in order to access deeper levels of content and interact with their idols on the platform.

Step 3

Scaling and creating new connections between users.

Fans, through the example of their idols, are able to create and monetize their own content and interact with other people. New connections are created with Influencers from related spheres.

A smooth onboarding experience for users

We want to avoid mistakes that have been made by other projects and ensure that users are able to smoothly transition to the MPAX platform.

Customer Support

Clear and comprehensive documentation and support resources for users, particularly for those who may be new to cryptocurrency and blockchain technology.

Education Hub

We offer educational materials to help users understand the basics of crypto and streaming technologies and how they work within the context of the MPAX platform.

User-friendly Interface

A user-friendly interface and minimizing the complexity of tasks such as setting up wallets and making transactions could also help to make the transition to the platform as smooth as possible for users.

Sectors impacted by MPAX

Content creators

Sharing live content allows for direct monetization from its audience at zero production cost, yielding an up to 80% net income.

Tourism

With MPAX, anyone can embark on a "virtual tour," teleporting to desired destinations and marveling at the wonders of our planet. This opens up opportunities particularly for those with disabilities or those who have a fear of flying, making exploration accessible to all.

Car buying

Remotely inspect the desired product online, personally assessing its color, texture, and other attributes.

Real estate

Whether for agents or property investors, MPAX will become the go-to platform for saving time and money in the property buying process: from viewings to contract signing, everything could be done via MPAX technology.

Sport

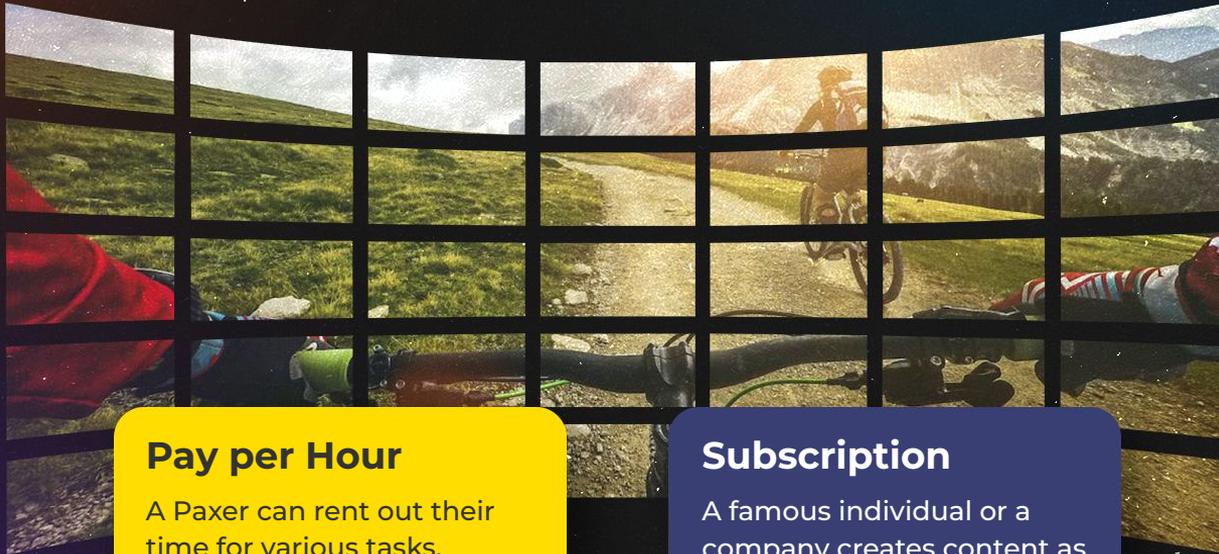

Through a variety of interactive content, MPAX deepens the fan experience and the connection between them and the team.

Exhibitions

MPAX creates the ability to find a perfect supplier and new business partners remotely by viewing the supplier's products in detail and seeing them in action/testing them live without wasting time and money on flights.

Clear financial structure and profitable business model

Pay per Hour

A Paxer can rent out their time for various tasks, earning from \$20 per hour.

Subscription

A famous individual or a company creates content as usual and decides on a set price for access.

We create

MPAX App

The mobile app features personal accounts for both Beholders and Paxers. Its core functionality is centered around fostering interaction between users.

MPAX Platform

New generation platform that will connect people on a completely different level and provide the ability to perform tasks in real time from any place in the world.

MPAX API

All live streaming devices capable of broadcasting to any server are supported. Stream with your mobile phone, action camera, and any other device you're accustomed to using.

We support

Blockchain technology integration

**Fast, worldwide
and affordable**

*the percentage depends on the amount of staked tokens.

MPAX token use cases

To start streaming, each Paxer needs these 3 things:

01 Streaming device

You may utilize any market-available wearables that meet the MPAX platform's specifications.

02 MPAX tokens

You have to stake MPAX native tokens, and based on the amount staked, you will earn between 50-80% of the total revenue generated from your livestream.

03 NFT

NFTs can only be minted with MPAX native token.
